

Obstetric Ultrasound

Reimbursement Policy ID: RPC.0038.5420

Recent review date: 01/2026

Next review date: 10/2026

Healthy DC reimbursement policies and their resulting edits are based on guidelines from established industry sources, such as the Centers for Medicare and Medicaid Services (CMS), the American Medical Association (AMA), state and federal regulatory agencies, and medical specialty professional societies. Reimbursement policies are intended as a general reference and do not constitute a contract or other guarantee of payment. Healthy DC may use reasonable discretion in interpreting and applying its policies to services provided in a particular case and may modify its policies at any time.

In making claim payment determinations, the health plan also uses coding terminology and methodologies based on accepted industry standards, including Current Procedural Terminology (CPT); the Healthcare Common Procedure Coding System (HCPCS); and the International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM), and other relevant sources. Other factors that may affect payment include medical record documentation, legislative or regulatory mandates, a provider's contract, a member's eligibility in receiving covered services, submission of clean claims, and other health plan policies, and other relevant factors. These factors may supplement, modify, or in some cases supersede reimbursement policies.

This reimbursement policy applies to all health care services billed on a CMS-1500 form or its electronic equivalent, or when billed on a UB-04 form or its electronic equivalent.

To the extent that any procedure and/or diagnosis codes are specified in this policy, such inclusion is provided for reference purposes only, may not be all inclusive, and is not intended to serve as billing instructions. Listing of a code in this policy does not imply that the service described by the code is a covered or non-covered health service. Benefit coverage for health services is determined by federal, state, or contractual requirements and applicable laws that may require coverage for a specific service. The inclusion of a code does not imply any right to reimbursement or guarantee claim payment. Other Policies and Guidelines may apply.

Policy Overview

This policy describes reimbursement limitations for obstetric ultrasounds in processing all claims submitted to Healthy DC.

Consistent with guidelines from the American College of Obstetricians and Gynecologists (ACOG), the American College of Radiology (ACR), the American Institute of Ultrasound in Medicine (AIUM), the Society for Maternal Fetal Medicine (SMFM) and the Society of Radiologists in Ultrasound (SRU), Healthy DC follows standard indications for reimbursement of obstetric ultrasounds:

Healthy DC reimburses up to three obstetric ultrasounds performed in an outpatient setting for pregnancies.

- Obstetric ultrasounds performed in emergency or inpatient settings and/or that are performed during a high-risk pregnancy are not subject to this limit.
 - One of these may be an ultrasound with detailed fetal anatomic examination for a primary evaluation of fetal anatomic abnormalities, including those due to genetic conditions, and/or evaluation of amniotic band syndrome.
 - Subsequent obstetric ultrasounds during the same pregnancy will not be reimbursed without prior authorization.
- Obstetric ultrasound for the purpose of determining fetal sex or for production of photographic memory keepsakes will not be reimbursed.
 - Three-dimensional (3-D) or four-dimensional (4-D) obstetric ultrasounds will not be reimbursed.

Exceptions

N/A

Reimbursement Guidelines

Healthy DC utilizes edits to reinforce the above-mentioned payment limitations on obstetric ultrasounds.

For accurate reimbursement:

- The claim must have a valid procedure code from the CPT/HCPCS code set, effective for the Date of Service (DOS), that accurately describes the obstetric ultrasound performed. All CPT coding guidelines are applicable.
- The claim must have a valid Place of Service (POS) code that accurately describes the setting in which the obstetric ultrasound was performed. Claims for obstetric ultrasound will not be recognized as performed within the emergency or inpatient setting without POS 23 or 21.
- The claim must have the valid diagnosis code(s) from ICD-10-CM Chapter 15: Pregnancy, Childbirth, and the Puerperium that describe(s) the patient's pregnancy. Claims for obstetric ultrasound without a valid pregnancy diagnosis code will be denied. All ICD-10-CM coding guidelines effective for the DOS are applicable. Because obstetric ultrasounds are performed for different conditions within specific trimesters, pregnancy diagnosis codes without a specified trimester are considered not valid.
 - Claims for obstetric ultrasound will not be recognized as performed for high-risk pregnancy without a valid high-risk pregnancy diagnosis code. Refer to the attached list of ICD-10-CM high-risk pregnancy diagnosis codes, effective for DOS from October 1, 2025, through September 30, 2026.

Refer to CPT/HCPS manuals for complete descriptions of procedure codes and their modifiers, and to the ICD-10-CM manual for complete descriptions and guidelines of diagnosis codes.
